Discuss the sentences above. Do you agree or disagree with them? Why?
In a moment, you'll watch an interview with Bill Gates titled:

What Bill Gates is afraid of

What do you think he dreads most?
As you watch the interview, note down answers to the following questions:

- What are the chances of an epidemic worse than Ebola according to Bill Gates in his lifetime?
- What are the two types of flus?
- Why is the Spanish flu called this way?
- Why would any epidemic nowadays spread quicker than in the 20th century?
- How big of an investment in preparing for an epidemic can make a difference?
● What are the chances of an epidemic worse than Ebola according to Bill Gates in his lifetime?
  Over 50% chance
● What are the two types of flus?
  Flus that spread very fast and flus that are deadly
● Why is the Spanish flu called this way?
  It's called the Spanish flu because the Spanish press was the freest, they were the first to talk openly about it.
● Why would any epidemic nowadays spread quicker than in the 20th century?
  Because of modern transport
● How big of an investment in preparing for an epidemic can make a difference?
  Less than $1 billion a year
What do the following phrases mean?

- a widespread disease
- an outbreak of flu
- an infectious disease
- the immune system
- polio/malaria eradication
Discuss the questions below:

➔ Do you agree with Bill Gates that we should be afraid of an outbreak of some epidemic? Why/why not?
➔ Do you think that globally we're prepared for such infectious diseases?
➔ What can be done to stop the spread of a disease globally in the 21st century?
Rewrite sentences using adjectives from the list below so that the second sentence has a similar meaning to the original one.

**EXAMPLE:**

- There might not be a solution to stop climate change.
  Climate change might be **unstoppable**.
1. It’s hard to believe in your story and I think you’ve made it up.
